

## About Gulf Coast Courier & Expediting, Inc.

Gulf Coast Courier & Expediting, Inc. offers on-time pick-up and delivery of almost any item in the Northwest sector of Florida and Southeast Alabama, and we pride ourselves on the fact that we do this at very competitive prices.

With today's rising fuel costs, the combination of both our pricing and our history of on-time deliveries (99%) gives you the peace of mind that you are getting the most out of your transportation dollars. Doctors, attorneys, bankers, real estate agents and even farmers have all relied upon Gulf Coast Courier & Expediting, Inc. to transport their critical documents, equipment and freight to their final destinations. In addition, we have many daily and weekly routes already established throughout Pensacola, including various hospitals, court houses and shipping points. Your shipment may already be along one of our routes, and if it is not - we have the capabilities of creating new routes.

Our pricing and history of on-time deliveries is due in no small part, however, to our commitment to hiring the best people in the industry. We are thankful not only to our customers, but also to our loyal employees. We make certain that every associate is properly trained before being placed in their job. Our drivers are trained in a defensive driving approach, and have been work-comp-free over the past 12 months. We protect our employees the way we protect your shipment - a philosophy which has rendered us a high retention rate, which, in turn, also results in maintaining lower prices for our customers. Its a win-win.

As you can see, we have a proactive approach to being the best courier and trucking company in the greater Pensacola area. We are successful because we make every effort to make you successful too, by delivering your parcels and freight on time, by hiring and keeping the best people in the transportation industry, and by accomodating and evolving to our customer's unique needs.

We encourage to you contact us with any questions you may have, including requesting for quotes, either through the online form or by calling:
